RE: Criminal Complaint

Subject: Request for protection for witnesses: Michael Gill for State of Corruption

Dear Chief Bryfonski:

What I have enclosed is just information pertaining to 12 witnesses/Confidential Informants ("CI"). I have 3-4 times as many witnesses/CI who are willing to testify regarding their knowledge of the below matter. Which bears the question - -what exactly are you doing? Don't know that Dick Anagnost is a major drug dealer? I've enclosed text messages detailing the price, location of exchange, and distribution of illegal drugs and prescription drugs. Again, do I have to remind you that the same drug dealer (Anagnost) is running the HOPE treatment center. HELLO!

This individual has been a drug dealer for >40 years, including today. I have significant evidence substantiating this, such as police eye witness testimony. The evidence addresses not only drug dealing by the criminality of the protection of this drug dealer and his operations throughout the state of New Hampshire. Further partners in crime are Andrew Crews ("Crews") and William Greiner ("Greiner"). Crews is hiding drugs in his automobiles. Greiner is an extortionist and runs Primary Bank – which is involved in the laundering of drug money. Anagnost's involvement extends into real estate, which include committing fraud against the US government that involved HUD and the biggest cocaine bust in NH history. Coincidence?

Additionally, we have included information that these 12 witnesses/CI can provide, such as how they carry the drugs into New Hampshire in construction equipment. You will also read evidence regarding motorcycle gangs – Hell's Angels. I am getting this information from multiple sources and repeatedly – from police officers to actual gang members.

I am seeking a face to face meeting. I want you to know up front that I am making this evidence and this letter available to the public. I simply don't trust you. I am going to do what I can to ensure that you are doing your job. Do I need to remind you that we are up to 1000 drug related deaths in NH?

I am fighting these criminals in court. Judge Delker is aware that I am providing this information to you. The longer it takes you to act, the more people will die.

Knowledge of a crime, and the jurisdiction to pursue those responsible, thereby imposes upon you, the legal obligation to pursue this.
